Certification	ISTQB, Wrestling (State and District level)
Diploma	DCPA

CURRENT PROJECT

Company	Zensar Technologies, Pune
Project Title	TrustedLink Enterprise
Platform	VbScript and QTP
Duration	Since: - 04/1/2008 to till upto
Client	Inovis

Project Details

To test the TrustedLink Enterprise product. TrustedLink Enterprise is an Electronic Data Interchange (EDI) application that runs on a client/server software system enabling EDI buyers and sellers of goods and services to prepare, translate, track, store, and exchange electronic documents with their business partners. TrustedLink supports a variety of published standards that handle the most frequently exchanged documents between business partners in various industries, such as automotive, transportation, health care, retail, and government. Some of the standards and subsets that TrustedLink Enterprise supports include: ■ ANSI ASC X12 ■ UN/EDIFACT

Job Responsibilities -

Role: Working as the Team member in the Project
Team Size: 6

- ◆ Coordinating the modules done by team members.
- ◆ Writing TestCases for product.
- ◆ Framework part in report making.
- ◆ Write Automation Scripts in QTP for TLE.

Company	Zensar Technologies, Pune
Project Title	Test Automation Framework
Platform	VbScript and QTP
Duration	Since: - 01/9/2007 to: - 01/11/2007
Client	Zensar TCOE Dept

Project Details

To develop a Test Automation Framework allows developers to target Html Report, Web,Oracle9i, OracleApps Excel and Xml. As with vbscript targeting the Test Automation Framework, programs written in QTP are secured and user friendly. This generation of VbScript continues the tradition of giving you a fast and easy way to create Test Automation Framework-based applications.

This version of TAF brings back support for Edit and Continue and has lots of features for rapid application development. One of these features, called HtmlReport, provides quick access to common tasks done by the Test Automation Framework, as well as information and default object instances that are related to the application and its run-time environment. New language features include loop continuation, generic types, and custom events. VbScript also fully integrates the Test Automation Framework.

Job Responsibilities -

Role: Working as the Team member in the Project
Team Size: 6

- ◆ Coordinating the modules done by team members.
- ◆ Generating Html Reports.
- ◆ Framework part in report making.
- ◆ Working on new proposals after the basic version has completed.

Company	Zensar Technologies, Pune
Project Title	Pre-QTP Object Spy
Platform	C#.net and win32 Api
Duration	Since: - 01/1/2007 to: - 01/5/2007
Client	Zensar TCOE Dept

Project Details

To develop a testing tool which can capture properties of window objects and produce xml object repository. Object spy is a tool in the project named Pre-QTP. The whole project Pre-QTP is aimed for developing a solution that reduce the usage of QTP(Licensed Automation Testing Tool) for automation test script writing. object spy is for capturing windows object and there properties and generating xml based Object Repository, which can be used for generating Automation Test Script with Script Generator(second Tool in Pre-QTP).

Job Responsibilities -
